Five trainees of HUBER SE successfully complete their apprenticeship

08.08.2022

On Tuesday, 2 August, HUBER SE honoured five graduates of different apprenticeships for their successfully passed final exams. In the HUBER Forum at the company's headquarters in Berching-Erasbach, the trainers as well as the board of directors congratulated the now former apprentices and wished them much success in their takeover departments and for their further career. All graduates were taken on by the company.

In July, a marketing communications clerk, two industrial clerks and two wastewater technology specialists successfully completed their training at HUBER. Nadine Koller (marketing communications clerk) will continue to work in the marketing department. Industrial clerk Antonia Schmalz is working as team assistant in the Global Service department and industrial clerk Maximilian Kränzlein was taken on as accounts payable clerk. The two sewage technology specialists Niklas Beringer and Jonathan Meyer will in future be travelling worldwide as mechanical service technicians for the Global Service department.

Congratulations from the board and trainers

The management board members Georg Huber (Chairman of the Board), Dr. Johann Grienberger (Chief Technology Officer) and Rainer Köhler (Chief Sales Officer) as well as the trainers personally congratulated the graduates on their successful completions and wished them much joy and success in the departments they will be working as well as for their further professional careers.

Successful graduates : Five trainees of HUBER SE completed their apprenticeship at HUBER SE and will be all taken on by the company
